

# iFoster: Life-changing resources

iFoster's mission is to ensure that every child growing up outside of their biological home has what they need to become successful, independent adults.

iFoster addresses the investment gap between what resources and opportunities are funded by child welfare and what children need to achieve self-sufficiency and reach their full potential.

## Getting what you need

iFoster has 100s of resources to support families, help youth achieve self-sufficiency and for organizations to include in their own programs. Everything is available 24/7 through personalized, secure accounts in the iFoster resource portal and TAY Assistant at [www.ifoster.org](http://www.ifoster.org). Resources cover: daily living, health & wellness, K-12 education, youth employment, college & career, plus cost savings for agencies.

## Who is eligible

Become an iFoster member and join over 45,000 youth, families and agencies getting the resources they need. It's free to join and you must be a member to access resources.

Eligible members include:

- Transition-age foster, kin, probation, guardian and adoptive youth (age 16 and up)
- Foster, formal and informal kin, legal guardian, adoptive, and at-risk biological families
- Direct service agencies, advocacy groups, government child welfare departments, and others who support children at-risk of growing up outside of their biological homes

## Learn more, request a workshop

The iFoster team would love to inform and train your staff and clients on iFoster resources and opportunities, how to use the portal, and how to sign-up for programs and get the resources they are interested in. Contact us!
